○ Summary ○

Technologist driven by deep enthusiasm for computer systems and digital innovation. My background is quite diverse ranging from English teaching to advanced photography. My career evolves around a simple goal: understanding how things work and making them better. Currently bridging the gap between high-level software development and industrial robotics.

○ Languages ○

Español
Nativo

Inglés
Conversational

○ Skills ○

</> Frontend & UI
React, TypeScript, Tailwind CSS

{ } Backend & Data
Node.js, PHP, MySQL

🔧 Automation & Engineering
Python, PLC Programming, Git

Education

Escuela Provincial de Educación Técnica N°7

Associate Degree

Automation and Robotics

Jardín América, Mnes. • 2023 - 2026

Advanced technical training in the design, implementation, and maintenance of automated industrial systems. Focused on **PLC logic programming**, industrial robotics, and control theory. Developed core competencies in sensor integration, electrical circuit design, and electromechanical troubleshooting to optimize production efficiency.

Escuela Provincial de Educación Técnica N°7

Associate Degree

Elctromechanical Design and Assembly

Jardín América, Mnes. • 2023 - 2026

Higher Technical Degree focused on the full lifecycle of industrial equipment. **Electromechanical design**, technical blueprint interpretation, and professional assembly. Integration of mechanical structures with electrical power systems, ensuring high-performance standards and operational safety in complex industrial environments.

Certifications

Intensive Specialization Certificate, React.js Development & Frontend Technologies

2023

Government of the City of Buenos Aires (Codo a Codo 4.0)
Intensive frontend development program focused on building web applications using React.js. The curriculum covered core concepts including Hooks, State Management and Component Architecture following modern JavaScript (ES6+) standards.

Full Stack Web Development Certificate (JavaScript/Node.js)

2022

Government of the City of Buenos Aires (Codo a Codo 4.0)
Intensive professional training program focused on Full Stack Development. Focused on JavaScript and Node.js, covering both frontend and backend architecture.

B2 First Certificate in English (FCE)

2022

Cambridge University

Upper-Intermediate (B2) level according to the Common European Framework of Reference for Languages (CEFR). This certification validates my ability to write detailed reports, participate in technical discussions, and articulate complex ideas clearly in both written and spoken English.

Experience

Freelance
Web Developer & Digital Solutions Consultant

Jardín América, Mnes.
Nov 2024 - Present

- Cloud-Native Workflow Automation: Architected the migration of a legacy desktop-based automation system (InDesign/ExtendScript) to a modern, web-based PDF-as-Code engine, using high-performance technologies (React, TypeScript, and @react-pdf/renderer) to dynamically generate and merge large-scale catalogs (500+ products) from CSV data sources. Integrated logic with pdf-lib to combine dynamic content with static marketing assets, achieving full cloud scalability and zero-error production.
- E-commerce & Web Development: Developing and maintaining e-commerce platforms and websites, including payment gateway integrations such as Mercado Pago.
- CMS Optimization & UX: Executing technical and aesthetic optimizations for CMS platforms (WordPress/WooCommerce), leveraging PHP for custom feature development and CSS/HTML to refine the overall User Experience.
- End-to-End Project Management: Managing full-cycle digital projects for diverse clients, including In Bloom, Wappa, and Corchazo (Music Industry), overseeing the entire workflow from initial design to final deployment.
- Visual Asset Post-Production: Handling technical image processing, post-production and design via Inkscape, Adobe Lightroom, Illustrator among others. to ensure the aesthetic and technical integrity of digital and print media.

Freelance
Photographer & Visual Content Creator

Jardín América, Mnes.
Feb 2023 - Present

- Photographic production focused on commercial, urban, and event-based content. My work joins technical photography and aesthetic judgment, ensuring every asset aligns with my clients goals.
- Product & Commercial Photography: Creation of visual assets for online stores, optimizing brand identity through high-quality imagery.
- Event Coverage & Lifestyle Sessions: Management of lighting and composition in dynamic environments, delivering professional results under demanding conditions.

In Bloom
Co-founder & Web Developer

Jardín América, Mnes.
2021 - Present

- I carried out the digital transformation of this apparel brand, balancing technical execution with business growth. I led the end-to-end development of our e-commerce infrastructure.
- E-commerce Infrastructure: Designed and deployed the full-cycle e-commerce website using WordPress and WooCommerce, integrating secure payment gateways like Mercado Pago.
- Technical Optimization: Developed custom features and refined site architecture using PHP, and HTML/CSS to improve performance and user experience.
- Digital Brand Identity: Managed the comprehensive brand strategy, including UI/UX design, photography, and visual content creation using design software as Adobe Illustrator and Lightroom, among others.
- Inventory Management: Oversaw the technical management of product catalogs, ensuring data integrity across the platform.

Projects

Catalog Automation System (React & TypeScript) 2025 - Present
Developed a robust system for high-volume automated catalog generation (+500 items), migrating legacy ExtendScript logic to a modern web based architecture based on React and TypeScript.
[Source Code](#)

Custom E-commerce Infrastructure 2024 - Present
Design and implementation of customized online sales platforms integrating WordPress and WooCommerce with bespoke functionalities.
[Visit my latest website](#)

Automated Irrigation Simulator 2025 - Present
Arduino-based automated irrigation simulator integrating LDR sensors, servomotors, and LCD displays for real-time monitoring.
